Keysight Technologies (formerly Agilent’s Electronic Measurement Group)

Keysight Technologies, Inc. is a global electronic measurement technology and market leader helping to transform its customers’ measurement experience through innovation in wireless, modular, and software solutions. Keysight provides electronic measurement instruments and systems and related software, software design tools and services used in the design, development, manufacture, installation, deployment and operation of electronic equipment. To meet the ever changing engineering needs in those markets, Keysight will continue its active contribution to test and measurements instrumentation standards, such as LXI, PXI, AXIe, IVI, VXI.

New Name – Same insight [www.keysight.com](http://www.keysight.com)

Keysight is currently a wholly owned subsidiary of Agilent Technologies, Inc. and full separation is anticipated for early November 2014.
