LXI Consortium Celebrates its Tenth Anniversary

Niwot, Colorado (Sept. 4, 2014) – The [LXI \(LAN eXtensions for Instrumentation\) Consortium, Inc.](#) is celebrating its 10th anniversary. It has grown from 13 member companies in 2004 to a standard-setting organization including [52 of the leading Test and Measurement \(T&M\) companies](#) in the world. There are now [2,614 LXI-conformant](#) products in 262 different product families from 39 vendors. The LXI Consortium has conformance testing houses on three continents in the U.S., Europe, and Asia.

The Consortium issued the first release of the LXI specifications in September 2005, only one year after it was founded. The first LXI products were released in December of the same year. Now exceeding 2600 products, the LXI Standard has shown the [fastest growth and market acceptance](#) of any T&M standard.

The LXI Consortium provides the global infrastructure that supports the development, testing, maintenance and promotion of the [LXI specifications](#).

“I am proud to be the president of such a successful standards body. Our adoption within the T&M industry continues to grow. I am excited about the efforts we have underway within the LXI Consortium to support our vision of global adoption and utilization of LXI in the decades to come!” said Steve Schink, president of the LXI Consortium.

About LXI Consortium, Inc.

The LXI Consortium (www.lxistandard.org) is a standard-setting organization in the Test & Measurement industry that develops, maintains and promotes the open LXI Standard. LXI is the power of the Ethernet applied to T&M instruments, offering you new possibilities in test systems – local, remote, distributed and time-aware.

With 52 of the top test & measurement (T&M) companies sponsoring and developing this technology, and more than 2,600 products in over 260 different product families, LXI (LAN eXtensions for Instrumentation) is the current and future standard for T&M.

LXI has the fastest growth of new products of any T&M standard in the history of the test industry.
